DETAILED ACTION

Response to Amendment

1. Applicant's amendment was received on 12/8/06, and has been entered and made of record.
2. The terminal disclaimer filed on 12/8/06 under 37 CFR 1.321(c) is sufficient to overcome the Bryant reference (U.S. Patent No. 6,748,106).

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Peyton Watkins, reg. no. 36,390 on February 6, 2006.

4. The application has been amended as follows:

Claim 1, line 3, "proving image having image information" should be -- proving the image having the image information --.

Allowable Subject Matter

5. **Claims 1-54** are allowed.

6. The following is an examiner's statement of reasons for allowance:

The instant application recites a limitation, determining a residual image representing a difference between an extended color gamut and a limited color gamut of the output medium; and

recording the residual image on the output medium using a digital encoding means such that the residual image and the limited color gamut output print is adapted to be used to form a reconstructed extended color gamut digital image, whereby an improved image is provided on the output medium.

Moreover, with regard to claim 1, the applicant states, "the image having image information would correspond to the extended color gamut digital image." The applicant further states "the purpose of the present invention is to provide a way to store information that can be used to recover information that was not recorded in the image on the output medium in order to recreate an extended color gamut digital image." (pages 9-10 of the Remark filed on 12/8/06).

The features identified, in combination with other claim limitations are neither suggested nor discussed by the prior art of record.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
